

As employees of Acadian Companies, we welcome the opportunity to comment on AT&T/T-Mobile merger. Since 1971, Acadian Companies has been committed to providing the highest level of emergency medical care and transportation possible. Today, we have ground and air ambulance facilities strategically located in areas across Louisiana, Texas, and Mississippi, medics supporting offshore facilities across the Gulf, and monitoring services that are available across the country.

Every day, we are out on the front line of emergency care, and it is critical that we stay connected, wherever we are. This proposed merger will expand and enhance 4G LTE mobile broadband coverage across the state of Louisiana, and will be a great benefit to businesses like Acadian Ambulance Service because it will save us time and money, will increase efficiency, will allow us to stay better connected with our customers, and in the end, allow us to save more lives.

We hope you will support this merger because it will be critical to helping us communicate on the front lines of emergency response.
